

FLUORESCENT DOCKLITE® SERIES

Compact Fluorescent Docklite

DL-40SBFL-LH

DL-FL-42-LH

Lamp Included

DESCRIPTION: The Fluorescent Series modular compact fluorescent Docklite® light head has up to six times the lamp life compared to 150 watt incandescent dock lighting equipment. Offered in a 40 watt self-ballasted compact fluorescent or 42 watt 4-pin compact fluorescent lamp. The fixtures are an excellent choice for loading docks where lower maintenance and better energy efficiency are required. Can be used with Single-Strut, Double-Strut and Spring Arms.

SPECIFICATIONS

Light Head Construction: Steel housing with thermoset powder-coated safety yellow finish resists wear.

Lamp Type and Wattage: Lamp Included. Available with one ENERGY STAR® qualified, 40 watt, self-ballasted compact fluorescent lamp or 42 watt 4-Pin fluorescent lamp.

Reflector: Internal specular aluminum reflector for narrow flood distribution.

Hardware: Zinc-plated steel hardware resists corrosion.

Plug: Recessed 3-prong IEC type plug fits directly into arm receptacle.

Modular Arm Construction: 1-1/2" square steel tube arms available in four lengths (24", 42", 60" and 90"). Wrist action zinc plated steel joint on arms 42" single-strut and longer. Washers at all bracket joints for smooth operation, greater stability and longer wear. Thermoset powder-coated safety yellow finish resists wear.

Cord: Wear-resistant, 3-conductor AC cord from arm fits directly into standard outlet. Male plug on light head cord plugs into female receptacle in arm.

Mounting Bracket: Bracket is 3/16" thick and 3" x 5" zinc plated steel.

Switch: On/Off rocker switch and IEC type receptacle for use with Phoenix Docklite heads.

COMPLIANCES

UL153 Listed: Suitable for Dry Location

cUL Listed: Indoor
